

CLAUDE COWORK

Installation Guide

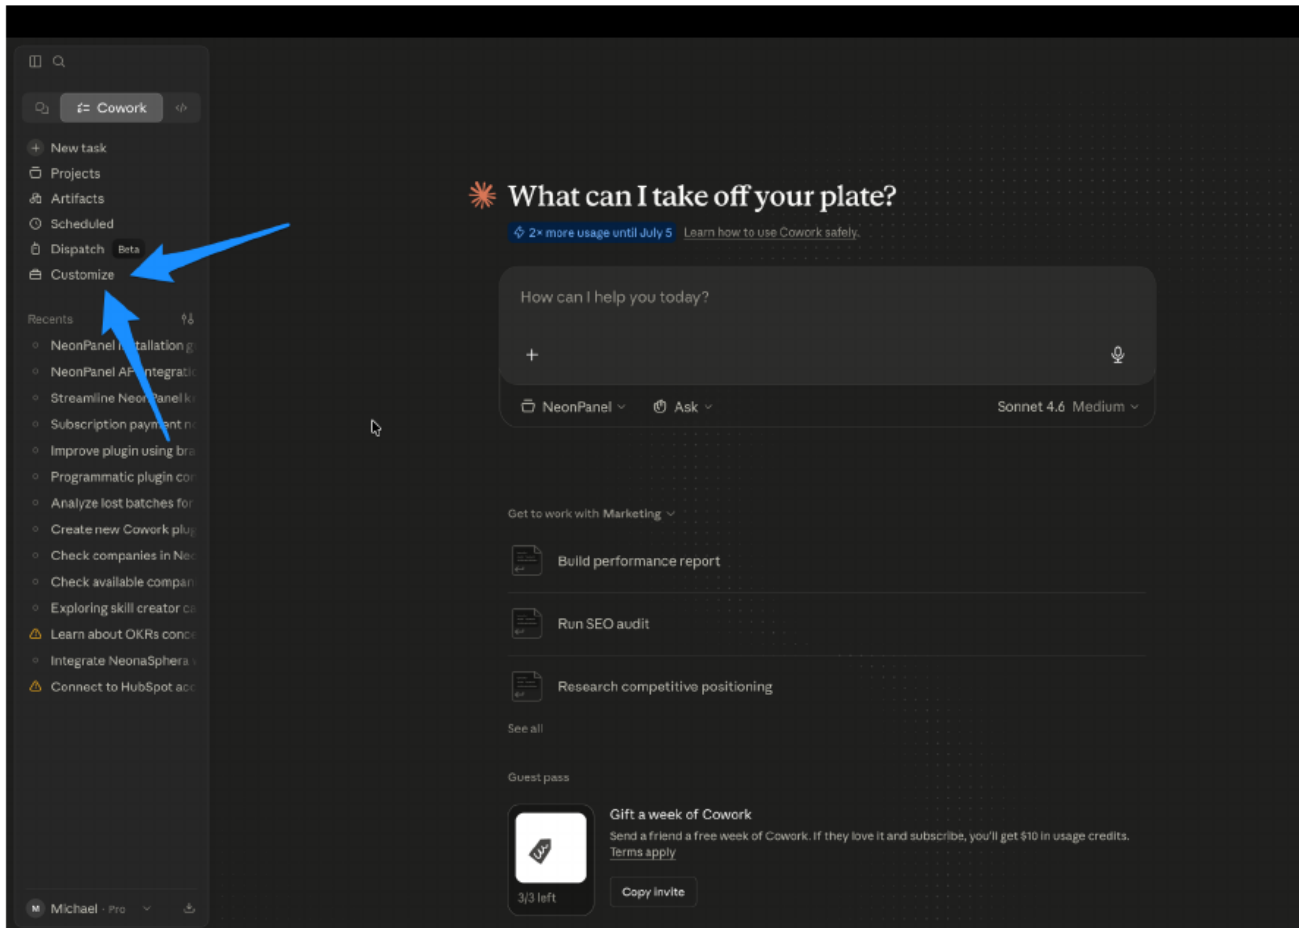

NeonPanel Plugin for Claude Cowork

June 2026

STEP 1

Click 'Customize' in the left menu

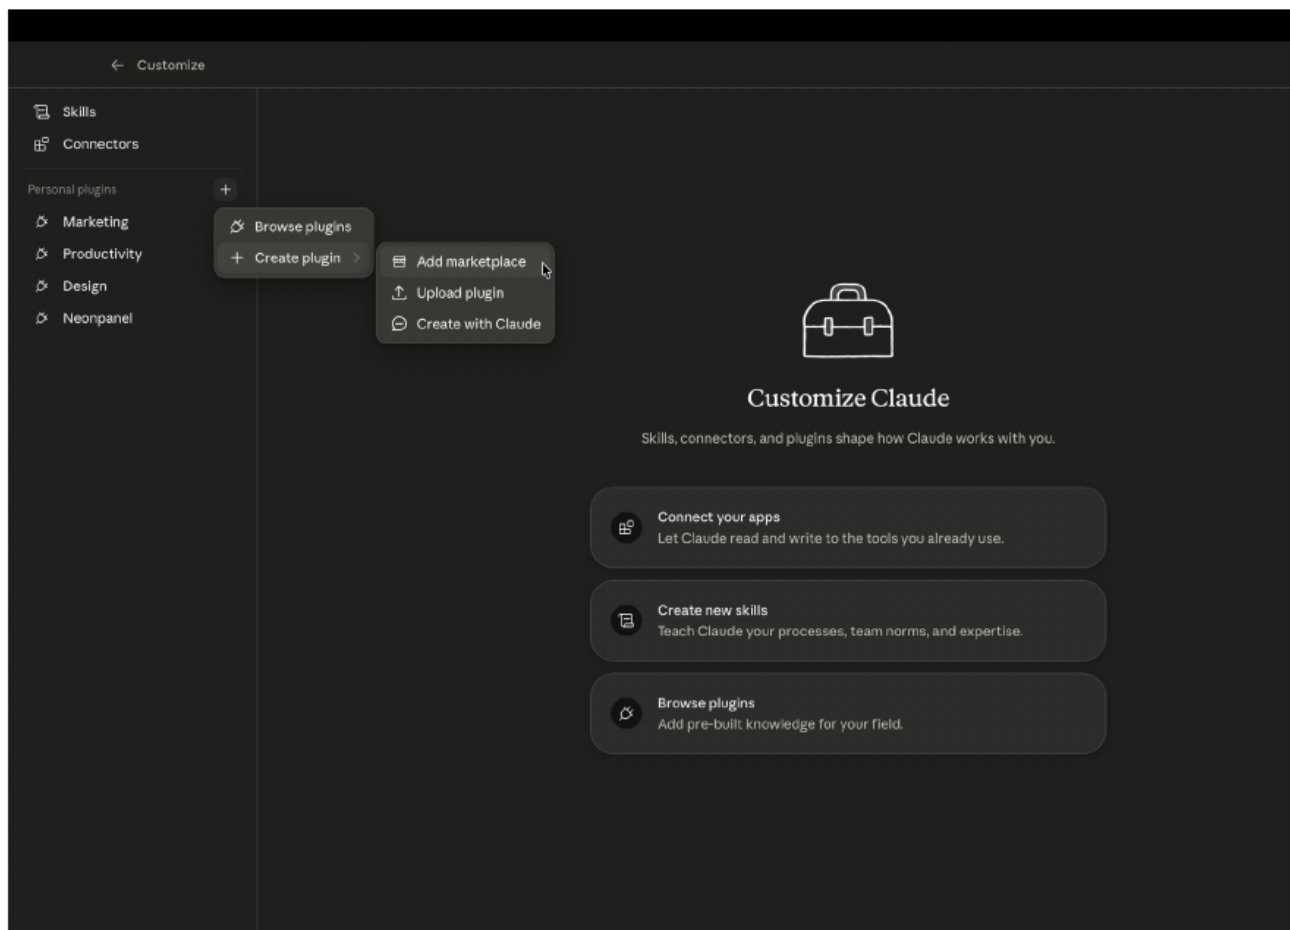

From any page in Claude Cowork, click Customize in the menu on the left-hand side.

STEP 2

Open Personal Plugins

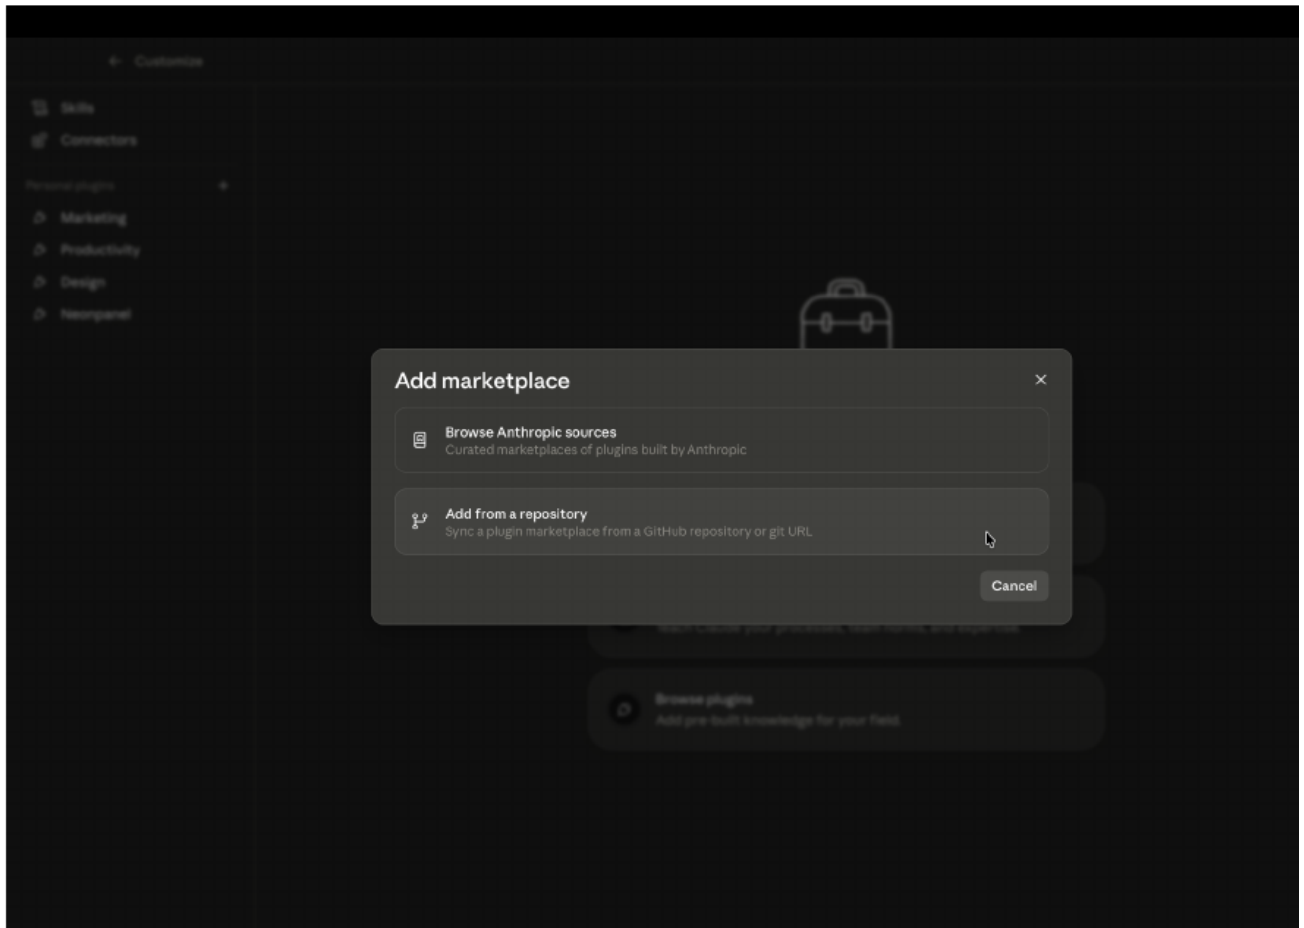

Under Personal Plugins, click the + button and select Create plugin.

STEP 3

Click 'Add from Repository'

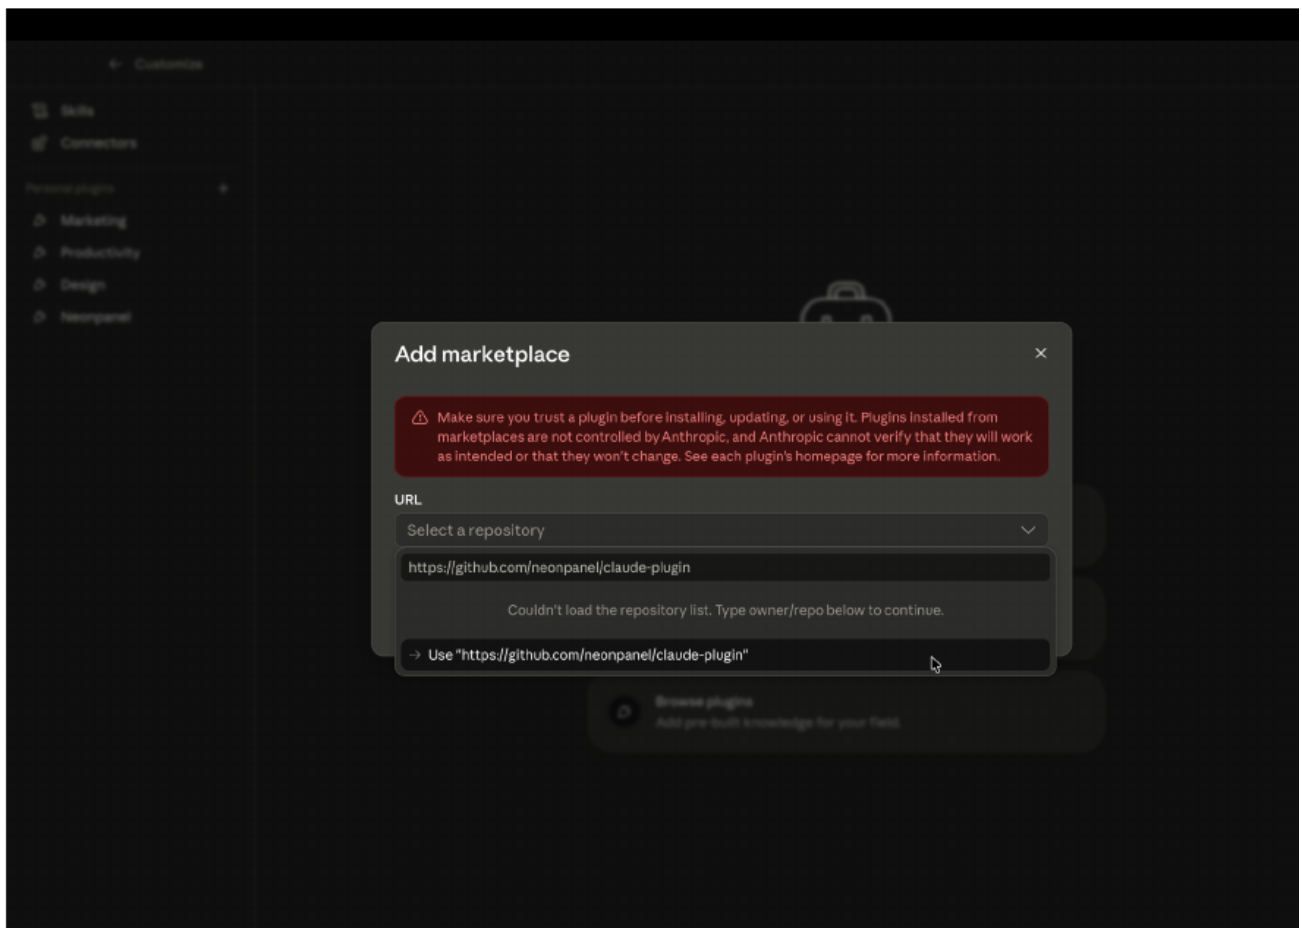

In the Add marketplace dialog, select 'Add from a repository' to connect a GitHub-hosted plugin source.

STEP 4

Enter the NeonPanel GitHub URL

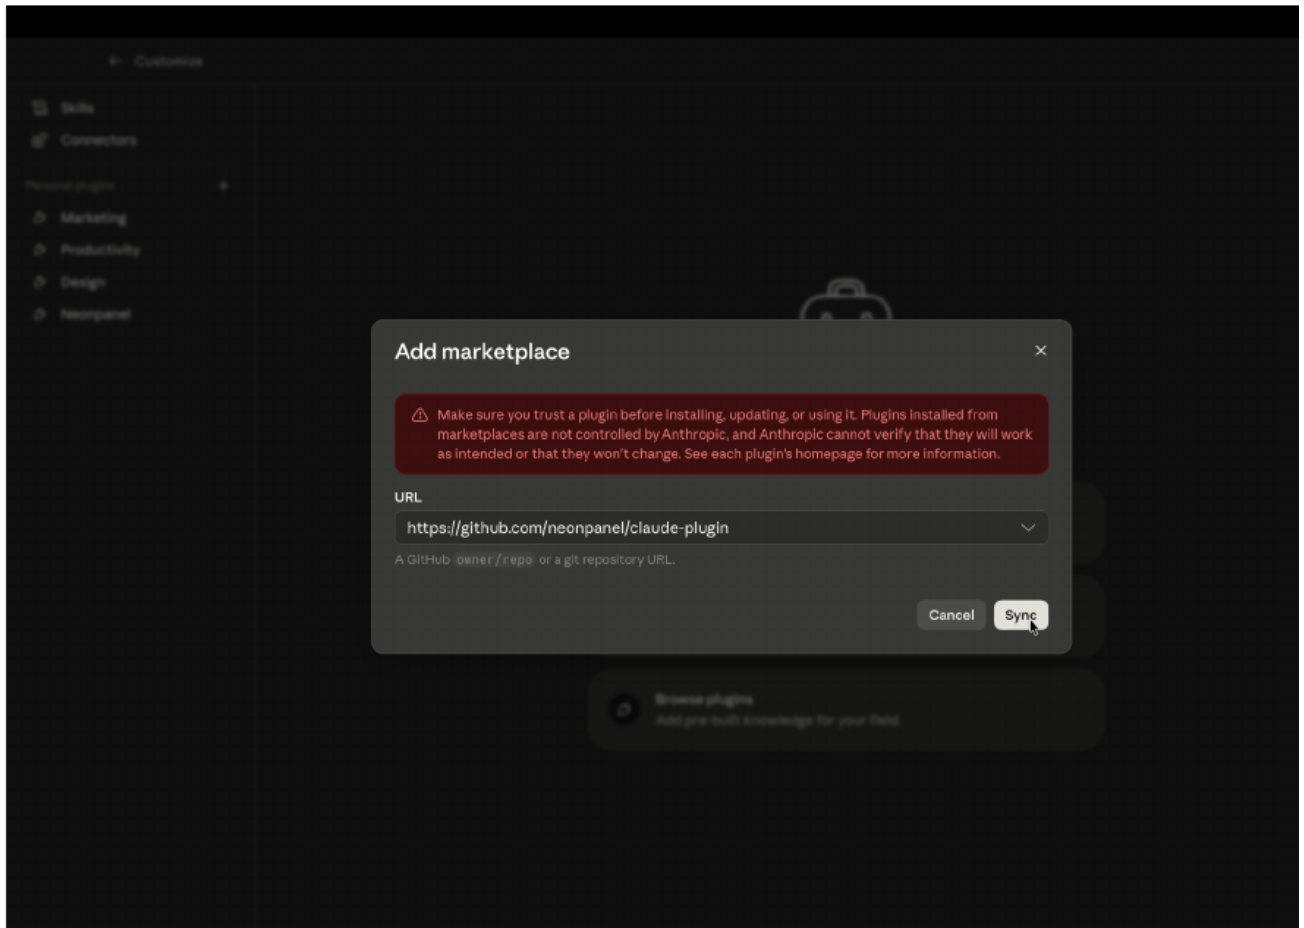

Enter and select 'https://github.com/neonpanel/claude-plugin' — this is the official NeonPanel GitHub Repository.

STEP 5

Click 'Sync'

Confirm the repository URL is correct, then click Sync to import the plugin.

STEP 6

Enable 'Sync Automatically'

In Plugin Settings, make sure 'Sync Automatically' is toggled on so you always have the latest version of the NeonPanel plugin.
